Important dates:

Abstract

submission:

Start: 17/9/2018

End: 10/4/2019

Online registration:

Start: 4/2/2019

End: 20/8/2019

Early bird ends: 26/6/2019

General information:

The Joint European Magnetic Symposia (JEMS) combine to form the most important and comprehensive conference on magnetism in Europe.

Symposia:

1. Biomagnetism and medical applications
2. Electronic structure and strongly correlated electron systems including superconductivity
3. Frustrated and disordered magnetism, artificial spin ice
4. Magnetism in carbon-based and organic materials
5. Magnetorecording media, magnetic memories and magnetic sensors
6. Magnetic thin films, multilayers, surface and interfaces
7. Magnetism in alloys and intermetallics
8. Novel magnetic techniques
9. Materials for energy (permanent magnets, magnetocalorics and soft magnetic materials)
10. Micromagnetics and magnetization processes
11. Nanomaterials, patterned films, nanoparticles and molecular magnetism
12. Spin-orbit and topology driven phenomena
13. Magneto-optics and magnetoplasmonics
14. Multifunctional magnetic materials: magnetic shape memory materials, multiferroics including artificial/composite multiferroics, and perovskites
15. Spin waves, magnonics, ultrafast magnetization dynamics and optically driven spin excitations
16. Magnetotransport, spintronics, spin orbitronics and spin caloritronics
